L D. CRENSHAW,

Market Stirred Into Some Degree of Activity Later in the Day.

OPENED AT 6 AND DECLINED

Sharp Reaction in Final Dealing-The Close Was Easy.

NEW YORK, July 3.—The stock market was very dull during the greater part of the session, but was stirred into some degree of activity in the final hour, when the highest prices of the day were made. The expected flurry in the money market falled to materialize, and when the shorts attempted to cover they bid up prices on themselves. There was a sharp reaction in the final dealings, and the market closed easy. The tone during the day was notably firm, and the market much of the same character as that of yesterday, and fair weather and crop harvesting was the basis of its strength. The grain-carrying roads led the advance.

Money opened at 6 per cent, and there were fears that the demand incident to the carrying over for three days would stiffen the rate before the close, but the rate on the contrary declined. The hope is entertained that easier money conditions will soon follow the completion of the semi-annual settlement. The foreign exchange rate, however, still holds near the gold export point, and Paris was a buyer of gold in the open market in London to-day. Sterling exchange at Paris, however, advanced sharply to-day and relaxed the pressure for gold.

Another development is the weakness of the New York exchange at Chicago, which fell to 59 cents discount today. Chicago reports a heavy demand from northwestern points for currency. There has been no loans by New York banks on interior account this week, but there is a sharp falling off in the movement of cash from the interior.

The day's bond market was dull and fregular. The investment demand for bonds, following the July disbursements, has not yet been largely in evidence, and there have been some declined; the 3's and new 4's ½, and the old 4's, registered, ½ per cent., as compared with the closing of last week.

MONEY AND EXCHANGE—Money on call firm at 6d3 per cent.; lest loan, 3 per cent.;

model and bauthanth-Money on Call firm at 603 per cent.; Isst loan, 3 per cent.; prime mercantile paper, 4½@5 per cent. Sterling exchange, \$4.86% for demand and at \$4.85% for sixty days; posted rates, \$4.86% 4.86% and \$4.884@4.89; commercial bills, \$1.84.84% @4.85% Bar silver, 52%; Mexican Scilare, 42 Government bonds, weak; State Bonds, weak; railroad bonds, irregular.

Members N. Y. Cotton Exchange Diverse Reports of Crop Conditions Serve to Help and Depress.

(By Associated Press.)

NEW YORK, July 3.—Bradstreet's tomorrow will say: Weather and crop conditions have been first in evidence this week, diverse influences affecting different sections to help or depress trade. Throughout the northern half of the country from the Atlantic coast to the Rocky Mountains, except in some parts of the Northwest, cold wet weather has injured or retarded crop development; hurt retail distribution, and checked reorders and fall business with jobbers. On the upper South Atlantic coast, crop conditions have been favorable, and trade has been measurably helped thereby, but extremely hot weather in the Middle Gulf section is complained of as affecting crop and trade conditions. Warmer dry weather is imperatively needed in the Northern and Western sections, if summer trads is to reach its full development. Eastern cities note the check given by the weather to retail trade and the summer researt, business. the check given by the weather to retail trade and the summer resort business. trade and the summer resort business. Grain markets have been considerably excited this week by the neavy and almost torrential rains reported in the Central West. Wheat harvesting has been interfered with, the cats crop has been damaged and the growth of the corn has been arrested. To just what extent injury has been done remains for warm fine weather to disclose. The situation has not changed materially in industrial lines. Signs of the soft coal strike in Pennsylvania and West Virginia falling increase, and a number of mines have resumed. The Kentucky and Illinois coal miners announce they will not strike and thus violate their contracts. The anthracite violate their contracts. The anthractic strike drars on, but a change is looked for next week. The soft coal miners and oal carrying roads are reaping a rich

COTTON MARKETS.

NEW YORK. July 3.—The cotton market opened quiet and firm, unchanged to 2 points higher in response to better Liverpool cables than expected. Not long after the call the fears of the local shorts, started by the better feeling in Liverpool, were allayed by reports of good rains in Central Georgia, and the whole list eased off, August dropping to 8.35.

Trading dragged considerable after 11 o'clock, and few traders anticipated any material change in prices on the bureau report. The latter, however, proves to be a most extraordinary statement and by many was discredited. After giving the average condition of the crop on Juna 25th as 84.7, or over 10 points decline from last month, the report stated that the recent heavy rains in Texas had done the crop little if any good, and that further deterioration might be looked for unless rains fell before the tenth of this month. Prices immediately shot upward on acute demand from both sides, led wy nervous bears. For the balance of the session the market exhibited a firm undertone, with shorts fearful lest the English market score decided gains during our holiday season. Sentiment swung around strongly to the bullish point of view, though many traders refused to buy cotton until after the holiday. Realizing by smaller houses caused reactions right. The close was very steady, net 3 points lower to 14 points higher. Total sales 175,000 bales.

NEW YORK, July 3.—COFFEE—The market for coffee futures opened steady with prices unchanged to 5 points lower; the partial decline resulting under light local liquidation. The close was net unchanged to 5 points lower and quiet. Total sales reached only 6,250 bags. Mild market steady.

DRY GOODS MARKET.

DRY GOODS MARKET.

NEW YORK, July 3.—DRY GOODS—The market has been very dull to-day in all departments; no change in tone or prices of any discription of cotton goods. Cotton yarns continue weak with poor demand. Fire in Philadelphia last night said to have destroyed about 3,000,000 pounds of cotton yarns, worsted and woollen yarns, Linea goods firm, but quiet. Burleps in little demand. Market closed until Monday.
